DEHOCHATIC TREET AND PLATFORM.

Many counterate appear to think they have seemed a great advantage by their tuness in inducing Thurman to accept their rounding the mean to accept their nominations for the vice presidency. But in order to have the full advantage of Thurman in ince they should have given him the leading place on the ticket. It is fulfarous to see a mirr of first rate ability and national reputation put below a man of first and ability who owes his prominence enti-ely to a chapter of accidents, for the purpose of making a "strong combination." If Thurman were proposed for the presidency his reputation would be an advantage to his party. But in the vice presidency his talents would be of little advantage to his party or to the country. There is no probabil-

party or to the country. There is no probability that he would succeed to the presidency, since there are one hundred chances that Claveland will outlive the terms to one that Thurman will outlive it. Hence, though Thurman's mame is on the tighth, the voting will be done on the name of Cleveland, not

on the name of Thurman.

Not is the den ecratic platform, as put forth at St. Louis, a thing of much account. forth at St. Louis, a thing of much account.
The real issues so the canvas will be the
president's message, the Mills bill and the
tariff record of the democratic party in congress. No attent to get away from this
record will avail. The real platform thereforo is Cleveland, his message, and the tariff record made by the party in congress during the last six ments. On this basis the issue record made by the party in congress turning the last six months. On this basis the issue in Oregon for the recent election, was made up, and if the voter throughout the country is similist of the like issue the popular majority against Cieveland, in the states where elections have a meaning and are not a farce, will exceed a million. The republican party has only to make judicious nominations, and the prospect is good that his Northern states will be swept by as great majorities as those thrown for Lancoln and Mamilia in 1860.

K grent delegation from Texas bas been at A great designation, from Texas has been at Bt. Louis, making a histor fight against indersement of the Milishili. Their effort has failed, and now if they could make up their minds that it is lootled to continue voting for men like Milis out of loyalty to the memory of the rebellion, they could make a protest at home that Mills and, his colleagues in the conspiracy against tool would hear.

Bishop Granbery of the Methodist church, South, who opened the democratic conven-tion with prayer, wis a chaplain in the Con-tenant army, during the par. profuse in the convention packed by his officeholders was not like apples of rold in partials us sayer; at rather resembled an ac-tempt to set a jewel in a swine's snout: Nothing can even make Cloycland anything more than a cheap, ordinary, heavy, int-witten, commonplace man.

It is a rentarkable last that Gen. Sheti-dan's normal Jules is 104. Day o'Reilly, the senior surgeon says that abnormal as the stationent may appear it is nevertheless true; that for live years his pulse has been 108. He inhorized this peculiar pulsation from his mother, who has lived to a good old age.

Here is the most unkindest cut of all. The chilfy demogration of Portland says: "There was leaders and miserly selfishmess at the head of our state organization." Did the brettner except for. Bush to expend his whole fortune for "the good of the

democratic national convention. The reason was that it was all fixed and ordered beforehand, and the convention had colling to do. But there will be general interest in the republican national convention.

Certain political prophets are predicting that this will be the republican toket, viz.: For president, John Sherman of Ohio; for vice president, Leti P. Morton, of New York.

In giving reasons for the defeat, a demo-cratic paper says: "The people were not educated up to President Clereland's tariff virsts." On the contrary, the people know too muces about them.

The demogration paper at Pendlatan is sufficiently and the sufficient plantors, who smalle demogration the "fronty of republicants," that southers and the first Sugar Brust, that path up for the thingstation and open twent the surplus reduced that

Cleveland's message and the Mills bill are the democratic plutform. These will be the basis of the converse, and the St. Louis plutform will be forgotten. "All unnecessor, taxation is unjust taxa-

tion," says the discrepantic national matioris.
Then off with the sugar tax!

A PREE TRADE DISCUSSION.

It was a grotesque group which was emaged in a tariff discussion on First and Washington streets for about fifteen minutes yesterday afternoon. One was a tall, cadaverous man, shabbly dressed, with a shruch hat. He was a free trader, Another was an undersized man, equally poorly dressed, and bis tariff opinion was in conformity with that of the first man. No. 2 was a incideraged woman. She was the write of the first man, and a protectionless from the wife of the first man, and a protectionless from the wife of the first man, and a protectionless from the wife of the first man, and a protectionless from the wife of the first man and a protectionless from the wife of the first man understanding, when the tail main attempted to score a point by suying to his wife.

"Now, if we had free trade that dress for which you point by early a year could be bought for 10 couts."

The other man assented; but the woman was not convitured.

"Yes: if ye demograts had free trade, 'this the likes of he as would like to know phered he divil to get 15 couts," Mar replied. Then, graphing the arta of her husband, she waitsed him down the street and pur an end to the discussion.

A Great Improvement.

The lot swined by Mrs. Burk adjusting Kamm's cover, on Washington street, has been improved by the excellon of a brick building two stories high. It is quite a novelty in the building line. The entire front, including the planters is constructed at galvanized iron, there being no brick, cement or wood excellations and has been supracted in a very near appearance, and has been supracted in a very rear appearance, and has been supracted in a very lasty ranner by the architects, Menara Milwaid & Martin.

There are a great many old buildings in town which might be made very attractive with this material, and that, we, price, a slight captered compared to the definition of the supractive forms of the supractive forms of the supractive forms of the material well finish, asswers the purpose fully as south, which become to be made into Mr. D. PORTLAND, OR

THE ELECTION DAY ARRESTS.—The persons or rested or relection day are nearly all out on ball. Bome three or four are still it juil, and will be examined by the U. E. commiss oner at the rate of one per day. Mr. Leonard, who charges a Mr. Ripperton wisherbillup him, and who was beld an witness was restered as the following the way bell of the war beld and the manner of the country that the country was the secretary of the day of the substitution of the U. S. grand jury, ordered to meet bero on the 19th. The case of Chief of Folice Partials will so into the mill with the rest, and it is probable also that the parties interested in resculing a personer from one of the depair, marshals will also be brought before the grand jury. The habest corpus case of Eli Morrill, who so distinguished himself one-lection day, will be before the control of hw lavalved to the case and the quote will probably for the control of the depairs.

chet that she con d. But after considering the matter the district afterney concluded that he would more for a dismissal of the case, and that is the end of it.

To Configer With East Pontland.—The Transcontinental Excit Entirely Company will receive, it a few days, the first necessary for extending their line foon Third and Yumbill down to Front, along Broat to Morrison, and up Morrison to Third, thus connecting their system of roads with the read across the bridge to East Bortland. Work will be commonweed as soon as the iron arrives which will be willing a work. The company will soon have in a daubic track on Saturet completed, and the soon have in a daubic track on Saturet completed, and which will be a duffer track on Saturet completed, and will be willing a track on Saturet completed, and will be a duffer track on the construction of the city, and generally plantages to be a little alond, as in the case of extending its line to S and Twenty-third streats.

The Sata Brokk—Roadcads are very common nowadays and are very convenient vehicles. Persons purchasing such can'ts should test their strength and avoid such addignts as overtook two mou last avealing. They were driving out Plais street on their way to their hous in the country. When between Hall and Lincoin the sant sundidney broke loose from its fastenings on their house from the strength was foo mitch the strength was foo mitch for so fragile a vehicle. With any soon to look two forms which for so fragile a vehicle.

With Armstra Wert Nort Mane—It is clearly work who ment have to look with impunity the ordinary who were took the road in the wright was foo mitch for so fragile a vehicle.

weight was too much for so fragile a vehicle.
WHY ARRESTS WERE NOT MADE.—It is clear how why people violate with impunity the orditance forbidding shade trees to be used as hitching posts. Two of the most prominent city officers are constantly guilty of the officers, A gonterman who has rooms in the officers, A gonterman who has rooms in the hispatic hardling states that the lines feets, while hitched to the clear in front of the elect, while hitched to the clear in front of the elect, while hitched to the clear in front of the elect, while hitched to the clear in front of the elect, while hitched to the lines in front of the elect, while hitched to the lines in front of the elect, while hitched to the lines in front of the electric than the clear while hitched the worst tree-gamer in town. William hadden, disputy a special content of streets, also here there are grantly for hitching posts, but his horse doesn't guaw the tree-sale.

Burglary.—The residence of Mrs. Norton, on the freezhouth street between Minit and Samon, was entered by a burglar Wednesdry night. A young woman in the house heard him rummaging around; and called out to know who was there, which scared him, and he decamped by the front door. Examination aboved that he had effected all entraince by the buck door and had opened the front door for convenient escape. Nothing was missing but some silverware. As election fild not pan out as well an usual, helds and hurgaries may be expected to be more frequent in future, as there are plenty of bed such in town.

Salvon More Plentiful.—Fish Commissioner

imay be expected to be more frequent in future, as there are planty of the duant it town.

Salmon More Plentiful.—Fielt Commissioner E. C. Reed returned yesterday from a visit to Asturia. He reports that the take of salmon, which has been light for some time, is gainting a lattle sithin the last few days. The submod of salmon hat he pool at the burchery is constantly increasing, he says, and at the rack which prevents them from going up the river, they gather in such numbers as to crowd one matther out of the water. He excepts to begin to take sparen indoor, the latter than the report of 17th, and from present appearance he historians to begin to take sparen indoor. From Cores in Manton.—Mr. K. Scott, offcent's mills, Manton county, is in the city. He says there will be finearous in old Marker this season. Along the loothills the wheat and outs are the mest he ver saw, a little better than on the prairies, but I say in both about Select. Do Not Buy Any More "Poor Rubber - Take Grand "Spiral" Cotton Hose, Hose," but Put Your Money in the

Lighter, Cheaper, and Better than the Best Rubber Hose,

Made on the same principle as the rubberlined hos used in Fire Departments, which last for years. The cotton duck used in all rubber hose draws in water wherever responded as a wick absorbedly and being confined by rubber generates a subparious gas quickly destroying the best rubber, lose The sylvial Hose having no outside covering to imprison the moisture will dry like a silving.

FIEE IN A THEATER.

A Blaze by Which Two Notable Places Were Destroyed in New York. The Academy of Music, was at one time threatened by the flames, but by dint of hard work the firement succeeded in preventing this, and at 3:45 the fire was under control. Both Tammany kall and Tony Pastor's theater were wrecked. The whole inside of the building is in ruins. Only the front on Fourteenth street remains. The damage will not be less than \$50,000. The lire started in the scene room of the theater. The flames were burning flercely before the firemen arrived.

Northwest Notes.

Washington, June 6.—Representative Ferkins, of Kansas, reported to the house today the bill to ratify an agreement with the Shoshone and Rannock Indians for the surrender of a portion of the Fort Hall Indian reservation in Idaho.

A postoffice has been established at Llano, Malbeur county, Oregon, and Francis C'Neill appcinted postmaster.

The secretary of the interior made a ruling foday modifying the decision of the commissioner of the general land office, who in his decision tejected the final proof and held for cancellation the pre-emplion case entry of Owen M. Scott, covering certain tands in The Dailes land district, Oregon. The commissioner's decision was based on the ground of initure to comply with the law as to residence. The secretary's modification permits the entryman to make new testimony, and proof showing compliance with the law up to the date when final certificate was issued.

Naw Yone, June 5.—In the trial of "General" and Madam Diss Bebar Trial, and Madam Diss Bebar Trial, and Madam Diss Debar; the jury was completed at noon. The first witness was the general's legal wife, who testified to that effect. The 1 Lawyer Marsh was put on the stand, and testified as to the production of spirit pictures by the Madam, her slate writing, and her calling, upon the spirits of Raphaei and others, with whom witness conversed from tima to time, as witness to Adelaide Neilison, Loia Montez, Raphaei, Cadmus, etc. They were produced for inspection of the jury.

Heavy Fire in Vermont.

BURLINGTON, June 6.—Fire broke out in the dry kiln of Laft & Morgan's sush and window factory this morning. A strong wind was blowing at the time, and before the fire department could reach the spot the entire building was in families. The fires at once spread to the Baldwin Cdmpany's office, and the Shepard & Morse Company's lumber yards, and later to the planing mill. Flames swept over we blocks, burning half a dozen tenement houses. Loss, \$270,000; insurance, \$150,000.
